COMMANDS  
FOR POINT OF SALES SYSTEMS**

**MANAGEMENT  
OF YOUR  
LOCAL  
INTELLIGENT**

**THE IDEAL  
SOLUTION**

# ATZ4

## TECHNOLOGY AND SIMPLICITY

From today the collection of orders at the table will never be the same.

The new ATZ4 Electronic Notebook involves a real revolution for what it concerns, not only the restaurant in its most traditional form, but in general, all the food.

Only those who invented the "Automatic Commands" Collection could do a planning effort and innovation that has allowed it to present to the managers a product like this.

They moved their passion for new challenges and are proud of the result.

And it demonstrated that the "Made in Italy" is able to say much longer.

15,3 cm

Automatic recognition of operators and customer management

Typing systems with Touch Screen, Touch & Write and Touch Planner.

Voice messages, with integrated loudspeaker

The operator can choose to work in horizontal mode or vertical
