# SMART TOUCH E SMART SYSTEM

Essential, functional, extremely flexible

## SMART TOUCH AND SMART SYSTEM: TWO COMPLETE AND COMPACT CASH REGISTER SYSTEMS.

CEI offers two brand new products to manage your work in a more flexible way. Thanks to their various functions and to the possibility of system customization and extension, they can offer you a reliable support for your business.

## SMART LINE HELPS YOU IN KEEPING YOUR BUSINESS UNDER CONTROL

Products, client database, vouchers, menu etc. registration

Storehouse and items below safety stock management.

Secure and fast payments

Possibility to organize and save data about your items or clients.

Possibility to program, register and visualize a large amount of data on screen. So that, when you use them, you can check if everything is correct.

## SMART TOUCH: A FLEXIBLE WORK TOOL CREATED TO SATISFY DIFFERENT AND CHANGEABLE NEEDS.

Software customization, both in functions and in visualization mode, according to your needs.

12" touch screen vertical display. Buttons and sums visible on a bright and wide screen.

Pages customization and software update.

Possible expansion with Network Interface Controller for connection to CashManager portal and RFID identification system.

Possible system expansion for orders collection with handheld ATZ4.

## SMART SYSTEM: A CASH REGISTER SPECIFICALLY CONCEIVED FOR RESTAURANTS

PVTAC card included for connection to handheld ATZ4

Proprietary radio network system.

Tables, orders, payments, bills, storehouse, clients .. etc. management

Possible connection to other CEI systems, such as printers, TFT14, handhelds, or on line CashManager portal.
