DOUBLE PRINTING MECHANISM**

LOADING PAPER

In a few, simple, movements your SPR33D is ready to work.

Wi-Fi

WI-FI COMMUNICATION WITH THE OTHER COMPONENTS OF THE SYSTEM

VERSATILE, COMPLETE, UNIQUE

The upper part houses the roll to printing commands, accounts, and typed messages on the touch screen of TFT14 and electronic notebook.
The lower part is characterized by the drawer and is completely removable, in which the blocks are placed to the emission receipts and invoices.

The tax documents can be customized with your logo and with dedicated graphics.

The SPR33D is designed to perform the two types of printing simultaneously. This allows to have a single support to carry out two essential functions.
